T'IS THE SEASON TO EXPECT MIRACLES

If you are like me, you are trying to watch all the new made-for-TV Christmas movies as well as the movies we have come to know and love, like "It's a Wonderful Life," "White Christmas," and "Miracle on 34th Street" - in both versions! We listen to Christmas music, sing carols, attend Holiday parties, and watch these special movies to reignite our need to *believe that miracles really are possible*.

When I watch Miracle on 34th Street for example, intellectually I see it as extremely far fetched. But in my spirit and in my heart, I *know* it is exactly how serendipity, synchronicity and coincidences happen!

Expecting Miracles begins with that which has zero intellectual rationalization ...and I know you *know* what I'm talking about!

Because this is the month where we turn UP our Believing Thermometers, together let's really crank it up to Find the Possible in the imPossible with the people, situations and events where you've needed or have longed for different results.

You want a Miracle? Go get it!

What does that mean?

It means get off your duff and *learn something new*, and then *do something different* about the circumstances in your life that are less than favorable. You cannot change a single thing in your life doing it the way you've been doing it, pushing harder with what you've learned so far!

It won't work. How can it? What you've learned so far clearly creates more of what you are already getting in relationships, money and health.

If you haven't succeeded by now with the beliefs and rules that *you* have been allowing to govern *your* life, trying harder at something that already isn't working is exhausting. And that's just for starters!

Using excuses like "It's none of my business" or "I can't control this" or "It's too scary, I simply can't" or "I don't have the time" or "This person will never change, and I am so screwed!" - will also get you more of the same.

To "go get it" means very specifically to go get new miracle-producing knowledge, say like learning how to powerfully [MasterMind](#).

What about learning how you can really hurt yourself and other people with that attitude of yours? Learn how to correct this by going and *getting* "[You Can't Have An Attitude & Keep It A Secret!](#)"

Go *get* stuff from the experts who have had documented, phenomenal, life-changing application and proof that what they *say* changes things, does in fact change things!

You want a Miracle? Go get it! ...right now by:

- 1) [registering now](#) and getting started on my FREE **31 Day Season of Miracles MasterMind**,
- 2) purchasing one or more of my eBooks and online courses AND [registering now](#) for Dec. 8's TeleClass **Mary's 3-Step Dance to Finding the Possible in ImPossible!** , and

How can 2-hours change your entire future?

Twenty years ago, the friend who actually became my very first MasterMind partner handed me a 2-hour audio tape of a training done by Arnold Patent, called *You Can Have It All*. It was about the Law of Attraction and how *mirroring* works.

He had simplified everything I was beginning to learn at that time into three steps that I turned into a **3 Step Dance** for myself. This one 2-hour audio tape changed my life. As I was moving from Casper, Wyoming to Portland, Oregon – as a single mother with no job – I must have listened to that audio 100 times. Over the next year, I must have listened to that one, 2-hour audio a bazillion times. You think I'm exaggerating, but I literally listened to it until it would play no more.

After the rush and excitement of the move to Portland, I found myself unable to succeed at securing work. Every time I received the call that they hired someone other than me, my first reaction was one of great relief. My second reaction was one of terror. This is called a clue! When you can no longer force yourself to do what you no longer have the energy to do, it's time to surrender to the dream that's trying to be dreamed through you.

That little 2-hour audio saved my life, and I mean this literally. By the time I started MasterMinding, I understood more fully what it was I was really doing. I had very little money, and yet I continued to have every single one of my basic needs met during this time of new learning. I did not work for nine months, and yet I lived in a nice apartment, and I always had food on the table for my baby and me as I began a new course of study.

My life became transformed because of the **3 Step Dance to Finding the Possible in ImPossible** that I am going to teach in my 2-Hour TeleClass and MasterMinding Coaching Session on December 8th. For more information [click here](#) or go to:

Interesting thing. Since I first decided on this topic for December's TeleClass Offering, I have been having some unexpected and major problems popping up suddenly! In each and every situation, they have all been miraculously altered and resolved completely in under a day, or in a week on one situation.

I will be sharing these miracles and more in this month's TeleClass!

Hi, Mary, I am doing the 31 Day Miracle MasterMind with you. Yesterday I requested that my relationship with my mother be healed. The last time I spoke to my mother was about 2 months ago & we both expressed a lot of disappointment with each other. As I was about to leave home last evening with my family, the phone rang & my husband answered it. After a couple of minutes he called me to the phone & of course, you know already know who was on the other end. Yes, My Mother! She was calling to tell me she has a bumper crop of mustard greens in her vegetable garden & To invite me to come gather some. We talked easily with each other for a few minutes & I was grinning from ear to ear the whole time. What a blessing!!! Thanks, for leading me through this. Anna K.
