

SUCCESSBYTES for the Month of March

SEASON OF FORGIVENESS

Easter Sunday is fast approaching – less than three weeks away! Despite disagreements concerning the holiday's origins, its name, or when it should be observed, that fact is that Jesus was all about Light, Love and human understanding. This season offers us one of the greatest examples of the uplifting power of forgiveness to heal, resurrect and transform any troubling situation.

Forgiveness means “to give up.” To give up the need to be right, to be a victim and to collapse into a state of powerlessness. To dismiss all sense of injury. To be undisturbed. To let go and trust our connection to Spirit be more important than any person or situation we currently face.

To forgive most often means to understand. It sometimes requires intuitive understanding of that which is unexplainable.

During this season of forgiveness, be powerful enough to become peaceful and quiet. Be powerful enough to affirm that there is one presence, one power in your midst which is helping you and guiding you. Your connection to Spirit is your one and only source.

Forgive yourself and you will Lighten up! As you practice forgiveness of yourself and of others, a rich life becomes your new experience.

When Jesus lived on earth, He healed all those who came to him.

He did not argue fine points of religious doctrine! He looked beyond all labels, religious and otherwise.

He looked with compassion upon all those in pain and suffering. He shined his Light and He called out the Light in all those he met. He did not discriminate. This is a true example of what he taught humanity to be.

He said to us, “You are the Light of the World.” Give your undivided attention to the Light within.

Our connection – attention – to Spirit is our Light, and we are meant to use it.

The more people we bring our Light to, the brighter we will shine.

As you know, I created the www.YouAreTheLightMovie.com to be a unique tool for remembering that you are Light, and you are meant to share your Gift with others. In closing and on a Lighter note ...

"Life should NOT be a journey to the grave with the intention of arriving safely in an attractive and well preserved body, but rather to skid in sideways, chocolate in one hand, wine in the other, body thoroughly used up, totally worn out and screaming "Woo-Hoo what a ride!" – Anonymous
